

EMPOWIRE

Professional Learning That Moves from Ideas to Implementation

Empowire partners with K-12 schools and districts to design professional learning systems that support implementation, not just attendance. Through our LEAP + SPARK Framework™, we help leaders, coaches, and educators translate professional learning into purposeful classroom practice while reducing initiative overload and educator burnout.

With 13+ years of K-12 and post-secondary experience, we help leaders, coaches, and educators translate professional development into purposeful classroom practice.

Who We Support

- ▶ Instructional Coaches
- ▶ Teacher Leaders
- ▶ PD Facilitators
- ▶ School Leadership teams

What Makes Empowire Different

- ✓ Systems, not siloed PD
- ✓ Built-in coaching & follow-up
- ✓ Practical classroom transfer
- ✓ Reduces initiative fatigue

The Real Challenge

Educators leave professional learning sessions motivated but without the time, structure, or support to implement consistently in classrooms.

Technology initiatives often outpace educator capacity, leaving coaches to bridge the gap between strategy, tools, and classroom practice.

Coaches are asked to drive instructional change without aligned systems, clear priorities, or sustained professional learning support.

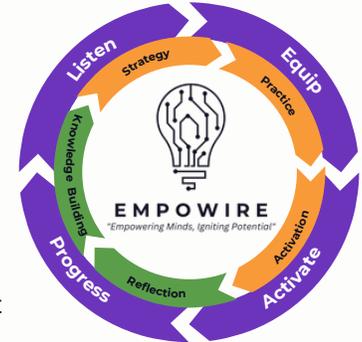

Professional learning often lacks the structures needed to move from ideas to sustained classroom practice.

Signature Framework: LEAP + SPARK Framework™

LEAP = leadership alignment

SPARK = classroom practice

Outcome: learning that sticks

The Catalyst Collection™

- ▶ **AI x EDU™ Bootcamp**: Builds confident, responsible AI use for planning, differentiation, and instructional efficiency.
- ▶ **LIT+TECH Fusion™**: Aligns literacy instruction with purposeful technology to strengthen comprehension and engagement..
- ▶ **The Confident Coach Academy™**: Equips instructional coaches to lead sustainable change and support classroom implementation.
- ▶ **The SPARK Learning Lab™**: Moves educators from strategy to practice through modeling, reflection, and follow-through.
- ▶ **The Consistency Shift™**: Aligns instructional routines and behavior systems to improve climate and reduce burnout.
- ▶ **Launch Year Lab™**: Supports early-career educators with structured learning that builds confidence and clarity.
